

Welcome to

# STRONG TOWER LEARNING CENTRE

# ABOUT US

Strong Tower Learning Centre is an Ofsted-registered tuition service dedicated to promoting equity in education and closing the attainment gap. We provide high-quality academic support that prepares children to succeed in top schools.

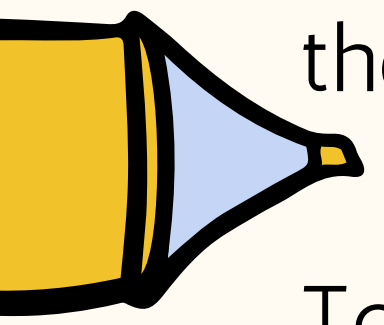

Our approach also embeds leadership, cultural awareness, and emotional resilience, ensuring that success is not only about gaining entry, but also about thriving within those spaces and building a strong future beyond them.

# OUR MISSION

Our mission is to empower children from marginalised communities – including those from ethnic minority backgrounds, with special educational needs (SEN), or from low socio economic backgrounds by removing systemic barriers, making high-quality tuition accessible, and ensuring that every child, regardless of background, can achieve their full potential.

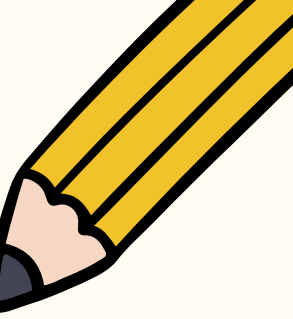

To achieve this, we focus on the following areas:

- Bridging the education gap for disadvantaged students at Key Stage 1 and 2.
- Affordable 11+ exam preparation for grammar and independent school entry.
- Tailored support for all marginalised children

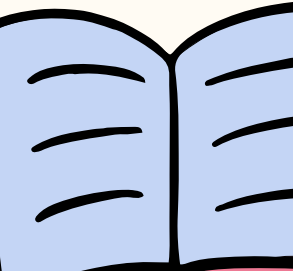

# OUR OBJECTIVE

Traditional education often prepares children to succeed in jobs that already exist. At Strong Tower, we want to unlock creativity, resilience, and entrepreneurial thinking to prepare children for jobs that don't yet exist, or better still, to build businesses and systems of their own.

This is why our tuition model isn't just academic, it is holistic. We embed confidence building, problem solving, soft skills, and cultural literacy into every lesson especially for children from low-income backgrounds, ethnic minorities, SEN groups and EAL learners, who are often underestimated or under-supported.

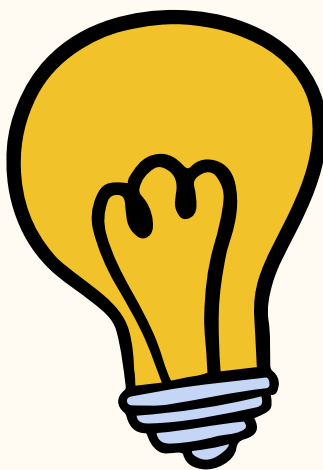

We don't want to simply help children fit in, we want them to stand out, to lead, innovate, and contribute from a position of strength! Strong Tower Learning Centre is here to change the narrative, not maintain it. We're not here to replicate mainstream education. We're here to reimagine what's possible for the children most often left behind.

# OUR OBJECTIVE CONTINUED

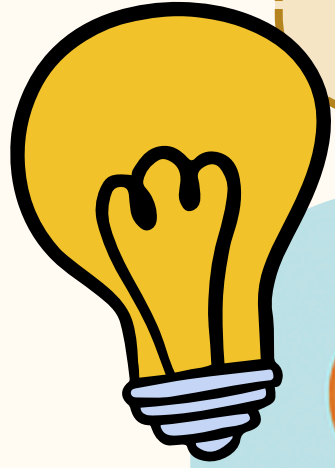

Our objective isn't just to add value by reinforcing what the traditional education system provides. Our objective goes beyond this and aims to create value by reshaping how disadvantaged children see themselves, their potential, and their future role in society.

- ◆ Adding value means improving a child's ability to function within a system, often preparing them to become excellent employees.
- ◆ Creating value means equipping a child to challenge, shape, and contribute to society preparing them to become leaders, thinkers, innovators, and employers.

# WHAT WE OFFER

# HOW TO ENROLL

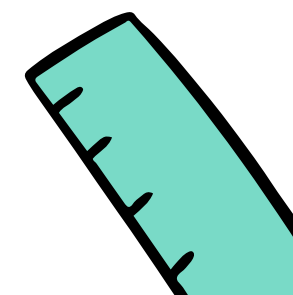

**1** Complete the registration form on our website.

**2** We will email you information on all the subjects offered and the payment options available. We offer both online and in-person tuition.

**3** Once you confirm which subject/s you would like to enrol in and complete the registration process we will set up your child's pupil account on our virtual learning platform.

**4** You will be sent a parent and pupil pack to provide detail on how the tuition will work and how to access the virtual learning platform.

**5** Your child is now fully enrolled and ready to enhance their educational journey.

Please get in touch with our team for further information. Our details can be found in the Contact us section.

On our website you will also find Frequently Asked Questions.
